OVEREENKOMSTIG artikel 4, Wet 26 van 1891, als verder bekrachtigd door Wet 18 van 1897, wordt hiermede kennis gegeven dat de volgende stukken Kroonland, gelegen in het Afdeeling van Gordonia bij publieke opbod, te huur aangeboden worden zal voor het kantoor van den Civiele Commissaris te Upington om 10 uur 's voormiddags, op Zaterdag, den 7den November, 1903, onderhevig aan de Voorwaarden en Bepalingen hierna te worden genoemd, en verder aan zulke condities als op den verkoopdag mogen vermeld worden.

De grond zal aan den hoogsten bieder verpacht worden voor een termijn van niet minder dan een jaar en niet meer dan vijf jaren.

De voorwaarden van de verpachting zijn als volgt:—

1. Een jaar huur zal aan den Civielen Commissaris op den dag der verpachting betaald worden, en als de pachttijd meer dan een jaar zal zijn, zal de gereedelijke betaling van de huursom vooruit voor het volgende jaar of de volgende jaren door goedgekeurde borgen verzekerd worden: mits echter de Civiele Commissaris twee jaar huur vooruit mag ontvangen, in welk geval genoemde borgstelling niet noodig is.

2. De regeering behoudt het recht de pacht te eindigen, mocht het dienstig geacht worden den grond te verkoopen of andere omstandigheden het te eeniger tijd noodig of dienstig maken, op twee maanden kennisgeving; en in zulk een geval zal de huur, betaald voor een nog niet afgeloopen deel van het loopende jaar, aan den huurder terugbetaald worden.

3. Gouvernements landmeters, bezig met het opmeten van Kroon of anderen grond met hunnen assistenten en bedienden, zullen ter alle tijde recht van toegang hebben, tot alle deelen van den verhuuren grond voor professioneele doeleinden, en het recht om eenig deel van het land te occupeeren, en hun vee of paarden te grazen en te wateren op alle weiden en bij alle wateren.

4. Alle wegen loopende over den verhuurden grond mogen door het publiek gebruikt worden als doorgangen (trekpaden) tot de uitgestrektheid van 200 yards op ieder kant van zulks weg.

7. De Regeering neemt niet op zich eenige bakens aan te wijzen. De beschrijving van het stuk grond zal op den pachtdag gegeven worden, en de huurder zal daarop verwacht worden de uitgestrektheid van het door hem gehuurde land te vinden.

8. De huurder zal geen recht hebben om af te houwen, te ontbasten of anderzins eenig boomen of jonge boomen op het gehuurde land te beschadigen.

9. De huurder zal bij het vervallen of anderszins eindigen van den huur, geen aanspraak hebben op eenige vergoeding voor verbeteringen aangebracht gedurende den huurtijd, maar deze zullen het eigendom der Regeering worden.

10. De huurder zal alle bestaande verbeteringen op den grond gedurende den huurtijd in goeden staat moeten houden en die in goeden staat afleveren, maar zal niet gerechtigd zijn tot eenige vergoeding daarvoor.

11. De huurder zal de pacht niet overdragen noch den grond of eenig deel daarvan onder-verhuren, of eenige gebouwen daarop, zonder dat eerst de schriftelijke vergunning der Regeering verkregen is.

12. De huurder zal zijn pacht geheel en volstrekt verliezen op het breken van eenige hem bindende voorwaarde.

13. De Regeering behoudt zichzelve het recht voor om het aantal personen te beperken, die op den hierbij verhuurden grond mogen wonen gedurende het bestaan van de pacht, en om, op aanbeveling van den Civielen Commissaris, na behoorlijk onderzoek ingesteld met medeweten van den huurder, hetzij zoodanig aantal personen te verwijderen als zij te veel moge oordeelen, of de pacht nietig te verklaren als haar billijk onder de omstandigheden moge voorkomen.

14. Het bewonen van grond onder deze huur zal niet beschouwd worden *bona fide* occupatie te zijn onder de bepalingen en voor de doeleinden van artikel 20 van Wet 40 van 1895.

15. *De huurder zal niet het recht hebben te dooden, vangen, betrappen, jachten of wonden, eenig wilde vogelstruisen, of nemen, verwijderen, bemoeien met of storen het eieren tenzij onder een licentie, uitgereikt onder Wet* 33 *van* 1889, *of zulke gelijksoortige Wet.*

Andere voorwaarden mogen op den koopdag genoemd worden.

De zegels, die volgens Wet 20 van 1884, aan het huurkontrakt moeten gehecht worden, zullen, vrij van onkosten door de Regeering aan den huurder verschaft worden.

IN terms of Section 4, Act 26 of 1891, as re-enacted by Act No. 18 of 1897, it is hereby notified that the following Pieces of Crown Land, situate in the Division of Steynsburg, will be offered for Lease, by Public Auction, in front of the Civil Commissioner's Office, at Steynsburg, at 10 o'clock a.m. on Saturday, the 7th November, 1903, subject to the Conditions and Stipulations hereinafter contained, and further to such Conditions as may be declared on the day of Sale.

The Land will be let on Lease for any term not less than one year, and not exceeding five years, to the highest bidder.

The following are the General Conditions of all such Leases :—

1. One year's rent shall be paid to the Civil Commissioner on the day of Sale, and if the term of the Lease shall exceed one year the due payment in advance of the rent for the subsequent year or years shall be secured by approved sureties; provided that the Civil Commissioner may receive two years' rent in advance, in which case the said security shall not be required.

2. The Government reserves the right of terminating the Lease should it be thought expedient to sell the land or other circumstances render it necessary or expedient at any time, at two months' notice; and in such case the proportion of paid rent for any unexpired portion of the current year shall be refunded to the Lessee.

3. Government Land Surveyors employed in the survey of Crown or other lands, with their assistants and servants, shall have the right of access at any time to any part of the land leased for professional purposes, and the right of occupying any part of the land, and grazing and watering their cattle or horses on all pastures and at all waters.

7. The Government does not undertake to point out any beacons. The description of each Lot will be given on the day of Sale of the Leases, and the Lessee will thereupon be expected to find the extent leased by him.

8. The Lessee shall not be at liberty to cut down timber, trees, underwood, or brushwood, except such as shall be reasonably necessary for his own use, in and upon the lands leased by him.

9. The Lessee shall not be entitled at the expiration or other termination of his Lease, to any compensation for improvements made during the term of the Lease, but they shall become the property of the Government.

The Government reserves to itself the right to limit the number of persons who may reside on the land hereby leased during the subsistence of the Lease, and, upon the recommendation of the Divisional Council, after due enquiry made with cognisance of the Lessee, either to remove such numbers of persons as it may consider excessive or to cancel the Lease as may seem to it equitable under the circumstances.

The cost of such inspection shall be borne by the Council. The Company undertakes to grant every facility for such inspection. Provided that any information obtained as the result of such inspection shall be used for municipal purposes only.

XVI. ACT

TO

Authorise a Company, styled "The Kommetje Estates, Limited," to construct and work a line of railway in the Cape Division between Fish Hoek and "The Kommetje."

[Assented to 31st August, 1903.]

WHEREAS a Company with limited liability, styled "The Kommetje Estates, Limited," has been formed and registered under the Companies' Act, 1892, with the object, among other purposes, of constructing, equipping, maintaining and working a line of railway from a point on the Cape Government Railways at or near Fish Hoek Station, to a point on the farm Slangkop, the property of the said Company, called the Kommetje, situate within the Cape Division: And whereas plans and sections of the line of railway proposed to be constructed have been deposited in the office of the Clerk of the House of Assembly:

And whereas it is expedient that the said Company should be authorised and empowered to construct, equip, maintain and work the said line of railway, and also to construct, maintain and work lines of telegraph and telephone along or near to the said line, in accordance with the provisions of this Act:

Be it therefore enacted by the Governor of the Cape of Good Hope, by and with the advice and consent of the Legislative Council and House of Assembly thereof, as follows:

1. The Company styled "The Kommetje Estates, Limited," shall be and are hereby authorised and empowered to construct, equip, maintain and work a railway similar to railway lines already constructed in this Colony on a gauge of three feet six inches wide, with no gradient steeper than one in eighty feet and with curves of not less than seven chains radius, commencing from a point at or near Fish Hoek Station on the Cape Government Railways line or such convenient junction point in the vicinity as the Commissioner of Public Works shall approve, and thence to a terminus at or near the cottage at the Kommetje situate on the farm of said Company called Slangkop within the limits of deviation shown on the plans lodged with the Clerk of the House of Assembly, save and except in so far as the said plans may be inconsistent with any of the provisions of this Act or with any alteration as hereinafter provided. The said Company being empowered to require the Government to make and maintain connections in such manner as the Commissioner of Public Works may approve between the line upon the Company's property and the up and down lines of the Government Railway; such connections, together with all buildings, signals and other works necessary and proper for the construction thereof, shall be laid, built, and constructed at the expense of the Company by the Government: Provided always that nothing in this section contained shall be deemed or taken to give to the Company any right, title or interest in or to, or any servitude over any land or building the property or in the occupation of the Government: and provided further that should it at any time hereafter become necessary to sever the said connections between the said line upon the Company's property and the said lines of Government railway, the Company shall not have the right to remove any rails or appurtenances thereto which may have been laid upon or over any land the property or in the occupation of the Government: and provided further that the Fish Hoek Station shall be and remain under the sole control of the Government, and any increased cost in the working thereof, consequent upon the said connections as well as the cost of working and maintaining the said connections, buildings, signals and other works aforesaid, shall be borne by the Company and the Government in equal proportions.

2. The said railway shall commence at such a convenient junction point with the Cape Government Railway at or near Fish Hoek Station as may be hereafter agreed upon between Government and the directors; thence across the Divisional Council

3. The directors may, by any persons thereto duly authorised in writing, enter upon any land for the purpose of surveying the same, and of probing and boring in order to ascertain the nature of the soil, or of setting out the line of railway, making full compensation to the occupier of the said land for any damage thereby occasioned, such damages to be recoverable, in the absence of agreement, by arbitration under the Lands and Arbitrations Clauses Act, 1882, and in default of an award of arbitrators within three months from the date when such damages shall be alleged to have been sustained, then to be recoverable by action brought in any competent court.

4. The directors may, with the permission of the Government enter upon, take possession of, and hold and retain for the purposes of this Act free of charge, so much of any waste Crown lands as shall be required for the construction and maintenance of the said railway or for any other purposes relating to the execution of this Act, and also enter upon any waste Crown land lying convenient to the said railway, and dig for, excavate, and carry away free of charge all stones, clay, or other material required for the purposes of the said railway: provided:—

(*a*) That nothing in this Act contained shall establish any servitude in favour of the Company upon any such land, not being land reasonably required for the actual working of the said railway, which may hereafter be sold or leased by the Colonial Government to any purchaser or lessee thereof; and

(*b*) That the term "Waste Crown land" shall not be taken to apply to land which has been or may be acquired by the Colonial Government, or by any public body representing the Colonial Government by purchase or otherwise, for any special purpose.

5. For the purposes of construction, maintenance and working of the said line of railway, the Directors are hereby authorised and empowered to enter upon, compulsorily acquire, take and use any land required for the said purposes, and lying within the limits of deviation as shown upon the plans deposited with the Clerk of the House of Assembly, and may enter upon any land lying convenient to the said railway, and may there dig, get and carry away any stone, gravel or other material which may be required or necessary for the purposes of this Act: provided always:—

(*a*) That the extent of land so taken for the railway shall not exceed in width thirty feet for the formation line, and such additional width required for the slopes, drainage, stations, approach roads and approaches to bridges over the said railway at the crossing of main or divisional roads, and all other works, matters, and things which may be requisite or necessary for the efficient construction, maintenance, and working of the said line of railway; and

(*b*) That the owner of any such land or materials shall be entitled to receive compensation therefor from the directors, which shall include all damage caused to him by the construction of the said railway across his said land or the removal of the said material, and failing agreement between the directors and the said owner as to the amount to be paid as such compensation, the said amount shall be determined by arbitration in manner provided by the Lands and Arbitration Clauses Act, 1882, and the Arbitration Act, 1898; and

(*c*) That the owner of any land which shall have been compulsorily acquired and taken as hereinbefore provided, and for which compensation shall have been paid, shall be bound and obliged to pass transfer of the said land in due form of law to the directors; and

(*e*) That where fences exist and the directors are desirous to obtain an entrance through such fences, such directors shall have the power to make such entrance, but the directors shall be bound to erect gates with locks and with keys, to be kept by the owner or occupier of the land and by any person authorised by the directors, and such gates shall be kept locked when not required to be opened for use.

6. The provisions of the two hundred and fifth and two hundred and sixth sections of the Divisional Councils Act, 1889, shall, *mutatis mutandis*, extend and apply to the said railway as though the same were a public road, the Company being deemed and taken to be referred to in the said sections in place and stead of the Divisional Council.

7. At all places where the lines of the said railway or any deviation thereof shall intersect or cross the line of any street or road, it shall be lawful for the directors to make and carry the said railway across such street or road, either by means of a level crossing or by means of a convenient or sufficient bridge or viaduct over or under such street or road: provided that the said directors shall be bound:—

(*a*) To make all such cuttings, embankments, and approaches, with all such culverts and drains, and all such repairs, as may be requisite to make good the street or road across or over or under the said railway, at gradients not exceeding one foot in twenty feet; and

(*b*) To maintain and keep in repair all such crossings, bridges, viaducts, cuttings, embankments, and approaches, culverts, and drains as aforesaid.

8. Nothing in this Act contained shall prevent any street or public road hereafter to be constructed under lawful authority from being made and carried across or under the said railway at all requisite and convenient places or shall prevent the erection of such gates or the construction of such level crossings as may be necessary for the above purposes: provided that the said authority shall be liable to make good all damage occasioned by such works.

9. The said railway, or any portion thereof, shall not be opened for traffic until the Directors shall have properly and sufficiently fenced the said railway.

10. It shall be lawful for the directors to exercise all and singular the powers by this Act conferred upon them by or through an agent or agents, duly authorised in writing.

11. The levels of the crossings over the main road at Fish Hoek and over the divisional road from Fish Hoek to Noord Hoek shall at all times correspond with the levels of the said roads so that the surface of the said line shall be level with the surface of the said roads and the said railway shall cross the said roads at right angles, provided further:—

(*a*) That the Company shall for the purpose of maintaining the said roads and the lines of rails crossing the said roads at their own cost pave that portion of the said roads between the said rails and three feet beyond each line of rail with hard wood-sets and shall keep the same in a proper state of repair.

(*b*) That the Company shall provide at each of the said crossings over the said roads guard rails of not less than thirty feet in length.

(*c*) That at no time shall any engine, truck, carriage or vehicle belonging to the Company running on the said lines of rails crossing the said roads be allowed to remain on the said crossings so as to impede public vehicular or other traffic.

(*d*) That proper provision shall be made by the Company for carrying away of all storm-water which the construction of the said railway may cause to be accumulated so as to prevent any injury being done to the said roads.

(*e*) That each and every approaching train shall be properly signalled by the due sounding of the whistle of the locomotive of the train before crossing the said road.

(*f*) That all work connected with the undertaking and affecting the crossing of the said main roads shall be subject to the approval of the Cape Divisional Council, signified by certificate of the said Council's Engineer for the time being.

(*g*) That the Company shall hold the said Council indemnified against any action which may be brought against it in respect of any of the said crossings over the said roads which may be occasioned by any fault or default of the Company or its servants.

(*h*) That the Company shall provide proper and sufficient gates of not less than thirty feet in length and signal posts and a gatekeeper to take charge thereof at each of the said crossings over the said roads as well as a wicket

gate on each side of the line of rails at each of the said crossings, the said thirty-foot gates to consist of two fifteen-foot swing-gates and to be fitted with "danger discs" for use by day and a lamp for use by night.

(*i*) That should the increase in vehicular traffic over the said roads at any time become so great as in the opinion of the said Council to render overhead bridges across the said line of railway at the said crossings necessary, the Company or its assigns shall construct and maintain such overhead bridges across the said line, the bridge over the said main road from Fish Hoek to be not less than thirty feet in width and that over the said divisional road from Fish Hoek to Noord Hoek to be not less than twenty feet in width and the approaches thereto to be of a gradient not steeper than one foot in thirty feet, the road over such bridges to be constructed by the Company or its assigns and to be thereafter maintained by the said Council.

12. The directors may from time to time, as occasion may require, take up by way of loan to be secured by debentures a sum or sums of money not exceeding in all an amount equal to one-half of the subscribed capital of the Company, and such debentures shall be duly registered in the Deeds Office as a debt owing by the Company, and when so registered shall constitute a first charge upon the property, undertaking, and assets of whatsoever nature of the Company, and shall be subject to such terms and conditions as to interest and as to repayment of capital as the Directors shall determine.

13. A tariff or tariffs of passenger fares and goods in all classes shall be framed by the Company with the approval of the Governor before commencing to work the said railway, and the said tariff or tariffs shall be liable to adjustment from time to time at intervals of not less than three years, at the instance of the Company or of the Governor respectively: Provided that such readjustment shall be subject to the approval of the Governor: and provided further that the rates of carriage of passengers and goods set forth shall be charged equally to all persons whatsoever.

14. All material and workmanship used or employed in and about the construction of the said railway shall be equal in quality to the material and workmanship of the railways constructed by the Colonial Government, and such material shall in every way satisfy the requirements of the Engineer-in-Chief of the Cape Government Railways.

15. All plant or material obtained in Europe or America shall before shipment be submitted for inspection to the Consulting Engineers for the Cape Government Railways, and shall be by them approved or rejected, and no such material shall be brought upon or used in the construction of the said railway unless so approved.

16. The said railway, or any portion thereof, shall not be opened for traffic until it shall have been certified to the Governor, by some officer to be by him appointed, that the same is sufficiently completed for the safe conveyance of passengers.

17. Upon the completion of the said railway, or any portion thereof, the directors shall enjoy all the privileges and be subject to all the conditions conferred and contained in "The Regulations of Railways Act, 1861," or any general Act now in force or hereafter passed for the regulation of railways.

18. If three years after the taking effect of this Act the railway shall not be completed, the Governor may at any time thereafter give the Company notice to complete the railway within twelve months, and should the Company not so complete, then all rights conferred by this Act shall cease and determine.

19. The directors are hereby further authorised and empowered to construct, erect, and work for the purposes of the said railway and no other purposes, a telegraph and telephone, or either of them, along or near the said line of railway, subject to the provisions of the Act No. 20 of 1861, entitled "An Act for the Regulation of Electric Telegraphs" and of Act No. 36 of 1895, entitled the "Railway Regulations Amendment Act, 1895."

20. 21. The Company shall and may be sued within this Colony by the name or style of "The Kommetje Estates, Limited," and the service of process upon the agent of the said Company, at his office or place of business in this Colony, shall for all purposes be deemed and taken to be good service upon the Company.

22. At any time after the date of opening for public traffic the said railway, the Colonial Government shall have the right, if so disposed, to purchase from the Directors, on giving six months' notice to this effect in three consecutive issues of the *Gazette* of the Colony, and the directors shall be bound, six months after date of the first publication of the said notice, to sell to the Colonial Government the said railway and also all buildings and plots of land acquired by the Company and used in connection with the working of the said railway, together with all rolling stock, engines, carriages, plant, machinery, and every matter or thing belonging to or connected with the said railway, as also any telegraph or telephone and apparatus, wire, instruments, and every matter or thing connected with the working therewith, in the possession of the Company under this Act, upon such terms as may be agreed upon between the Company and the Colonial Government, and, failing such agreement, at a price to be settled by arbitration in manner provided for under the "Lands and Arbitration Clauses Act, 1882": provided that:—

In the Court of the Eastern Districts of the Cape of Good Hope.

EDWARD VII., by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith.

To the Sheriff of the Colony of the Cape of Good Hope, or his lawful Deputy. Greeting:

WHEREAS upon the petition of SAMUEL JULIUS MILLNER, of Middelburg, Transvaal, (hereinafter styled the Plaintiff) it appears to us that BENJAMIN RALPH EDELSTEIN of Steynsburg (hereinafter styled the Defendant) is justly and truly indebted unto and on behalf of the said Plaintiff in the sum of £300 sterling, being five years rent payable in advance for the farm Tweefontein, Ward Aapiles River, in the District of Pretoria, Transvaal.

And whereas it further appears that the Defendant and his brother Louis Edelstein carried on business in co-partnership at Steynsburg, and that the said partnership estate was placed under compulsory sequestration on the 4th day of June, 1903.

And whereas it further appears that immediately thereafter the said Defendant clandestinely left his dwelling house at Steynsburg and departed from this Colony with intent to defeat or delay Plaintiff and his other creditors in obtaining payment of their debts.

Therefore the Defendant has committed an act of insolvency and it would be for the benefit of his creditors.

And whereas it further appears to us of record that the said Plaintiff applied to this Honourable Court on the 22nd day of August, 1903, for an order placing the estate of the defendant under sequestration in the hands of the Master of the Supreme Court, and the Honourable the Judge President did order that the said estate be sequestrated provisionally, and that the Defendant, upon being lawfully thereunto summoned, do shew cause, if any, why his estate should not be sequestrated for the benefit of his creditors, summons to be published once in the *Government Gazette*, in the *East London Despatch*, and to be served at the Respondent's last known dwelling house.

Now therefore we command you that you summon the said Defendant, that he appear before our Honourable Court of the Eastern Districts at Grahamstown on Monday, the 12th October, 1903, at ten o'clock in the forenoon, to shew cause, if any, why his estate should not by sentence of this Honourable Court be adjudged to be sequestrated for the benefit of his creditors.

And serve on the said Defendant a copy of this summons and return you then there this summons with whatever you have done thereupon.

Witness: The Honourable Sydney Twentyman Jones, LL.D., Judge, President of the Eastern Districts Court at Grahamstown, this 5th day of September, 1903.

OVEREENKOMSTIG artikel 4, Wet 26 van 1891, als verder bekrachtigd door Wet 18 van 1897, wordt hiermede kennis gegeven dat de volgende stukken Kroonland, gelegen in het Afdeeling van Gordonia bij publieke opbod, te huur aangeboden worden zal voor het kantoor van den Civiele Commissaris te Upington om 10 uur 's voormiddags, op Zaterdag, den 7den November, 1903, onderhevig aan de Voorwaarden en Bepalingen hierna te worden genoemd, en verder aan zulke condities als op den verkoopdag mogen vermeld worden.

De voorwaarden van de verpachting zijn als volgt:—

1. Een jaar huur zal aan den Civielen Commissaris op den dag der verpachting betaald worden, en als de pachttijd meer dan een jaar zal zijn, zal de gereedelijke betaling van de huursom vooruit voor het volgende jaar of de volgende jaren door goedgekeurde borgen verzekerd worden: mits echter de Civiele Commissaris twee jaar huur vooruit mag ontvangen, in welk geval genoemde borgstelling niet noodig is.

2. De regeering behoudt het recht de pacht te eindigen, mocht het dienstig geacht worden den grond te verkoopen of andere omstandigheden het te eeniger tijd noodig of dienstig maken, op twee maanden kennisgeving; en in zulk een geval zal de huur, betaald voor een nog niet afgeloopen deel van het loopende jaar, aan den huurder terugbetaald worden.

7. De Regeering neemt niet op zich eenige bakens aan te wijzen. De beschrijving van het stuk grond zal op den pachtdag gegeven worden, en de huurder zal daarop verwacht worden de uitgestrektheid van het door hem gehuurde land te vinden.

9. De huurder zal bij het vervallen of anderszins einigen van den huur, geen aanspraak hebben op eenige vergoeding voor verbeteringen aangebracht gedurende den huurtijd, maar deze zullen het eigendom der Regeering worden.

10. De huurder zal alle bestaande verbeteringen op den grond gedurende den huurtijd in goeden staat moeten houden en die in goeden staat afleveren, maar zal niet gerechtigd zijn tot eenige vergoeding daarvoor.

11. De huurder zal de pacht niet overdragen noch den grond of eenig deel daarvan onder-verhuren, of eenige gebouwen daarop, zonder dat eerst de schriftelijke vergunning der Regeering verkregen is.

14. Het bewonen van grond onder deze huur zal niet beschouwd worden *bona fide* occupatie te zijn onder de bepalingen en voor de doeleinden van artikel 20 van Wet 40 van 1895.

15. *De huurder zal niet het recht hebben te dooden, vangen, betrappen, jachten of wonden, eenig wilde vogel-struisen, of nemen, verwijderen, bemoeien met of storen het eieren tenzij onder een licentie, uitgereikt onder Wet* 33 *van* 1889, *of zulks gelijksoortige Wet.*

Andere voorwaarden mogen op den koopdag genoemd worden.

Kaapstad, 20sten Augustus, 1903.

OVEREENKOMSTIG artikel 4, Wet 26 van 1891, als verder bekrachtigd door Wet 18 van 1897, wordt hiermede kennis gegeven dat de volgende stukken Kroonland, gelegen in het Afdeeling van Steynsburg bij publieke opbod, te huur aangeboden worden zal voor het kantoor van den Civiele Commissaris te Steynsburg om 10 uur 's voormiddags, op Zaterdag, den 7den November, 1903, onderhevig aan de Voorwaarden en Bepalingen hierna te worden genoemd, en verder aan zulke condities als op den verkoopdag mogen vermeld worden.

De grond zal aan den hoogsten bieder verpacht worden voor een termijn van niet minder dan een jaar en niet meer dan vijf jaren.

De voorwaarden van de verpachting zijn als volgt:—

1. Een jaar huur zal aan den Civielen Commissaris op den dag der verpachting betaald worden, en als de pachttijd meer dan een jaar zal zijn, zal de gereedelijke betaling van de huursom vooruit voor het volgende jaar of de volgende jaren door goedgekeurde borgen verzekerd worden: mits echter de Civiele Commissaris twee jaar huur vooruit mag ontvangen, in welk geval genoemde borgstelling niet noodig is.

2. De regeering behoudt het recht de pacht te eindigen, mocht het dienstig geacht worden den grond te verkoopen of andere omstandigheden het te eeniger tijd noodig of dienstig maken, op twee maanden kennisgeving; en in zulk een geval zal de huur, betaald voor een nog niet afgeloopen deel van het loopende jaar, aan den huurder terugbetaald worden.

3. Gouvernements landmeters, bezig met het opmeten van Kroon of anderen grond met hunnen assistenten en bedienden, zullen ter alle tijde recht van toegang hebben, tot alle deelen van den verhuuren grond voor professioneele doeleinden, en het recht om eenig deel van het land te occupeeren, en hun vee of paarden te grazen en te wateren op alle weiden en bij alle wateren.

4. Alle wegen loopende over den verhuurden grond mogen door het publiek gebruikt worden als doorgangen (trekpaden) tot de uitgestrektheid van 200 yards op ieder kant van zulks weg.

5. Het reizende publiek zal het recht hebben om uit te spannen langs eenig weg die over het gehuurden land loopen.

6 Het recht om te zoeken en graven naar erts, metalen, delfstoffen, of edelgesteente is aan de Regeering of aan alle door haar gemachtigde personen voorbehouden, behalve in zoo ver als zulk recht de rechten en privilegien van gezegde huurders ten opzichte van edelgesteente en delfstoffen moge beperken, als bepaald bij eenige wet te dien opzichte

7. De Regeering neemt niet op zich eenige bakens aan te wijzen. De beschrijving van het stuk grond zal op den pachtdag gegeven worden, en de huurder zal daarop verwacht worden de uitgestrektheid van het door hem gehuurde land te vinden.

8. De huurder zal geen recht hebben om af te houwen, hout, boomen, hakhout, of kreupelhout, tenzij zulks als redelijk noodig mag wezen voor zijn eigen gebruik, in en op het land door hem gehuurd.

9. De huurder zal bij het vervallen of anderszins eindigen van den huur, geen aanspraak hebben op eenige vergoeding voor verbeteringen aangebracht gedurende den huurtijd, maar deze zullen het eigendom der Regeering worden.

10. De huurder zal alle bestaande verbeteringen op den grond gedurende den huurtijd in goeden staat moeten houden en die in goeden staat afleveren, maar zal niet gerechtigd zijn tot eenige vergoeding daarvoor.

11. De huurder zal de pacht niet overdragen noch den grond of eenig deel daarvan onder-verhuren, of eenige gebouwen daarop, zonder dat eerst de schriftelijke vergunning der Regeering verkregen is.

12. De huurder zal zijn pacht geheel en volstrekt verliezen op het breken van eenige hem bindende voorwaarde.

13. De Regeering behoudt zichzelve het recht voor om het aantal personen te beperken, die op den hierbij verhuurden grond mogen wonen gedurende het bestaan van de pacht, en om, op aanbeveling van den Afdeelings Raad, na behoorlijk onderzoek ingesteld met medeweten van den huurder, hetzij zoodanig aantal personen te verwijderen als zij te veel moge oordeelen, of de pacht nietig te verklaren als haar billijk onder de omstandigheden moge voorkomen.

14. Het bewonen van grond onder deze huur zal niet beschouwd worden *bona fide* occupatie te zijn onder de bepalingen en voor de doeleinden van artikel 20 van Wet No. 40 van 1895.

Andere voorwaarden mogen op den koopdag genoemd worden.

De zegels, die volgens Wet No. 20 van 1884, aan het huurkontrakt moeten gehecht worden, zullen, vrij van onkosten door de Regeering aan den huurder verschaft worden.

GOVERNMENT NOTICES.

[848.] [1903.]

Treasury, Cape Town,
Cape of Good Hope,
14th September, 1903.

HIS Excellency the Governor, with the advice of the Executive Council, has been pleased, in terms of the Electric Lighting and Power Act, No. 42 of 1895, to approve of the following Regulations, framed by the Corporation of the City of Cape Town.

W. A. COLLARD,
Actg. Assistant Treasurer.

THE CORPORATION OF THE CITY OF CAPE TOWN.

Regulations made by the Corporation of the City of Cape Town, under and by virtue of the provisions of the Electric Lighting and Power Act, 1895 (No. 42-1895).

1. In the construction of these Regulations, the following terms shall have the meaning assigned to them by this section, unless another meaning appears clearly from the context to be intended:—

"Corporation" means the Town Council of the City of Capetown.

"Engineer" means the Electrical Engineer to the Town Council, or other Officer in charge of their electrical undertaking, for the time being.

"Contractor" means the person engaged in the installation of premises, for the purposes of lighting the same by electricity.

"Consumer" means both the person applying for and using electric current.

2. Before the work of installing wires and fittings is commenced in any building for which a supply of current from the Corporation Electric Mains is required, an application for current with schedule of lamps, fittings, etc., in the accompanying form, duly completed and signed by the consumer, must be furnished to the City Electrical Engineer, hereinafter called "The Engineer," when the premises will be inspected by appointment and the positions of the meter and the fuse box will be determined.

3. On completion of the work in every detail the Contractor shall sign and forward to the Engineer a declaration that the work has been carried out in accordance with the regulations issued by the Corporation, and with the more detailed requirements of the Insurances Offices, when the work will be inspected and tested, and, if satisfactory, arrangements will be made for joining through to the Corporation Supply Mains. Should there be any defect, however, or should the insulation resistance fall below that specified in the Regulations, the current will not be supplied until such defect or leakage be remedied.

4. The Engineer may require samples of wire fittings or appliances for testing.

5. Continuous current will be supplied by meter provided by the Corporation, at a pressure of 220 and 440 volts. For all purposes a demand up to 2 kilowatts will be supplied from one pair of terminals at 220 volts. Above 2 kilowats the consuming devices must be divided into two approximately equal circuits, and will be supplied from three terminals.

Motor current will be supplied at 220 volts for motors absorbing not more than 2 kilowatts; above 2 kilowatts at 440 volts.

6. In the case of large buildings containing offices, let out to numerous tenants, one service will be run and current supplied in bulk, and charged to the landlord.

7. The first test and inspection will be made by the Corporation without charge, but should further tests or inspections be necessary, a fee of 10s. 6d., for each such test or inspection will be charged to the Contractor, and this fee must be paid before such tests or inspections will be undertaken.

The inspection and tests made by the Corporation are made in the interests of Consumers generally and the passing of an installation for connection to the mains by no means implies that the work has been done in the best possible manner. The Corporation will take no responsibility whatever in respect of testing a Consumer's installation on his own behalf, and do, therefore, not release the Contractor from any responsibility to the Consumer, should a fault subsequently develope. Consumers are particularly cautioned against increasing the number or candle-power of their lamps without competent advice, as by so doing they may cause their wires to become dangerously overloaded.

8. The Corporation will not be responsible for any interruption in the supply of current through unforeseen accident to machinery, conductors, etc., or otherwise, and they reserve the right to disconnect any installation from the Corporation Supply Mains for short periods to make alterations or repairs with or without notice.

9. The Consumer will be required to admit to his premises at all reasonable hours the duly authorised officers and workmen of the Council for the purpose of examination, repairs, etc. In the event of admission being refused or payment not being made for the supply of current, etc., the Corporation reserve the right to cut off the supply without notice and without prejudice to their rights to recover all amounts due.

10. Meters and fuse boxes will be sealed by the Corporation, and these seals must not, on any account, be broken, except by duly authorised Corporation Officials.

Should it, however, be found that the meter or fuse box seal has become broken, other than by the Officials of the Corporation, the Consumer is liable to be fined the sum of £5 in respect of the contravention of this regulation, and the Corporation further reserve the right to cut off the supply without notice, and without prejudice to their right to recover all amounts due.

11. The Corporation service conductors will terminate at the meter, which will be placed as near as practicable to the outer wall of the building.

12. Work of a temporary nature will not be connected to the mains except under special circumstances, and where such temporary work is allowed, special permission in writing must be obtained from the Engineer, who may grant or refuse such applications for connection and upon such terms and conditions as may appear desirable or circumstances warrant.

13. When it is desired to add to the number of lights, notice in writing must be given to the Engineer and in some cases a separate circuit must be run from the distribution board, upon completion of the same the work will be tested and if satisfactory connected.

14. When without altering the number of lamps it is desired to alter the position, notice must be given in writing that the work may be inspected and tested.

15. All conductors must be of tinned copper and of such a sectional area that the current in no case exceeds 1,000 amperes per square inch. When determining the size of conductors each lamp to be taken at not less than 16 c.p., taking 64 watts. Area of conductors must be so proportioned that the fall of pressure at the further lamp, when all consuming devices are in use, shall not exceed two volts. In no case must the maker's test of insulation resistance be less than 600 meghoms per mile. Concentric conductors may be employed, but where used the insulation resistance between the outer conductor and earth must be the same as set forth above, and the outer conductor must be connected to the middle or neutral wire.

16. When flexible wire is used it must consist of at least 22 strands of No. 38 S.W.G., or 35 strands of No. 40 S.W.G. pure copper, insulated either first with a layer of pure rubber, and then a layer of vulcanised rubber, or wholly with pure rubber, in which case the rubber must be laid on in two laps.

No flexible wire insulated with vulcanised rubber, silk, or cotton only, will be passed.

The use of flexible conductors, except for wiring flexible pendants, movable standards and hand lamps, will not be allowed. Fittings must be wired with stranded electrolier wire insulated with pure and vulcanised rubber.

17. The sectional area of all conductors radiating from the Distributing blocks must be maintained to the end of each circuit; and to end joints for lengthening conductors, or for reducing their sectional area, will not be allowed.

Joints can only be allowed when a branch is required off a circuit after it has left the distribution board. Joints are to be carefully made, using only resin as flux, and to be thoroughly sweated together.

18. All conductors having a greater sectional area than a No. 16 S.W.G. must be stranded.

19. No conductor having a smaller sectional area than that of a No. 18 S.W.G. may be used.

20. Overhead wires between two buildings must be carried on approved insulators at each end and pass through the wall through leading-in insulators or in such other way as may be approved.

21. All conductors must be efficiently protected either by incombustible tubes, steel armouring, or by hardwood casing. When tubes are used no elbows of any description may be employed, but corners must be turned either by means of slow bends or by the fixing of a suitable box. Where conductors are buried or sunk in the plaster of walls, the casing must be of non-absorbent waterproof material, and of sufficient strength to resist nails. No conductors used for purposes other than lighting, heating or motor power, may be enclosed in the same casing as these conductors. When conductors have to be carried on damp walls, they should be lead covered, and the casing must be blocked out from the walls to the extent of at least three-quarters of an inch.

Where one piece of casing crosses another, the casing must be fixed by means of screws and not nails. Conductors of opposite polarity must be kept entirely separate from one another unless they are enclosed in metallic cases connected to earth.

GOVERNMENT NOTICES.

22. Staples must not be used under any circumstances, nor may any flexible wire be supported by metallic eyes or hooks, unless a porcelain or ebonite insulating ring is inserted between the insulation of the conductor and the hook.

23. All conductors except the neutral main of a three wire circuit must be protected by fuses, and these must be capable of cutting off the current if this exceeds the normal current by 50 per cent. No pot fuse boxes, with closely fitting porcelain covers will be passed.

24. All the wiring must be done on the Distributing Board system. No isolated fuses, except at the service, will be allowed. No sub circuit shall carry more than three amperes.

25. Switches must be of incombustible material and so constructed (*a*) That they do not heat when the full current is left on continuously (*b*) That it is impossible for them to remain in a position between full on and full off, and (*c*) That they will break a circuit when a current 50 per cent in excess of that for which they are rated is broken at a pressure 50 per cent in excess of that for which they are intended to be used. Switches must not be inserted in any circuit on the neutral side of the consuming device.

26. The Consumer or the Contractor is advised to provide and connect up within three feet of the Corporation meter a double pole-switch, so arranged as to control the whole of the consuming devices connected to that meter. In no case must a switch be fixed on the Corporation side of the meter.

27. The Contractor or Consumer must, in all cases, provide and connect within three feet of the Corporation meter a main fuse on each conductor. In a three-wire installation the central conductor should be connected with a copper strap instead of a fuse. These fuses must be fixed on a separate board from other apparatus, and the Consumer is recommended to insist upon the Contractor making the carrying capacity of his main fuses less than those of the Corporation.

28. Where plug connectors are used they must on no account be fixed in the floor; in every case where they are used they must be controlled by a switch.

29. No electric lamp may on any account be adapted to existing gas fittings except with the Engineer's approval, and when such approval has been obtained the insulation resistance between the electric and the gas fittings must not be less than one megohm.

30. No fuses may be placed within ceiling roses. A separate ceiling rose must be provided for each twin flexible conductor, unless such ceiling rose is of special design and subject to the approval of the Engineer.

31. The insulation resistance between the entire system and earth shall not be less than the amount found by dividing the maximum current in amperes into 10 megohms. The pressure at all times to be reckoned at 220 volts.

32. The magnets, frame, and shaft of all motors where possible must be permanently connected to earth by a suitable conductor. Gas pipes must, on no account, be used for this purpose.

33. All motors, in which the current passing through them can momentarily exceed 10 amperes when the motor is connected directly with the mains, must be provided with a switch and starting resistance to be approved by the Engineer; the switch and starting resistance to be such that in no case can the current through the motor when the switch is on the first contact exceed 10 amperes at a time as the starting resistance is cut out.

In case of very large motors where the above Regulations would not apply, special arrangements must be made with the Engineer, but it will in all cases be required that the current shall increase gradually.

34. In case there is any interruption in the supply, starting switches must be provided with an arrangement for automatically disconnecting the motor. All live parts of starting switch must be enclosed with an incombustible covering.

35. The supply to every motor must be controlled by means of an efficient double-pole cut-off switch, placed in such a position as to be easily handled by a person in charge of the motor, and connected so that that by its means all pressure can be cut off from the motor itself, and from any regulating switch.

The switch referred to in this Regulation is required in addition to the main switch referred to in Regulation No. 26, except in cases where the motor is fixed within 15 feet of the entrance of the Corporation service, in which case the switch referred to herein may take the place of the main switch.

36. An efficient fuse or other automatic cut-out must be provided on each pole, so as to efficiently protect the branch circuit to every motor from excess current. Two separate single-pole cut-outs must in all cases be used, and it is preferable in case of 440-volt motors that a magnetic blowout of approved manufacture or some equivalent device for extinguishing the arc, should be provided. When fuses are used they must be of the enclosed type.

37. All resistances for arc lamps or for starting or regulation of motors must be of sufficient size to safely carry the current which can pass through them for the time during which it normally flows, and their temperature must not rise more than 130 degrees Fahrenheit above that of the surrounding air. They must be mounted on incombustible bases, and so fixed that they cannot, by conducted or radiant heat, set fire to any material in their vicinity. They must further be enclosed by incombustible material, placed at such a distance from the resistances that the outer cover cannot become dangerously hot. The outer cover must be so arranged as to entirely preclude the possibility of accidental contact with the resistances.

In the case of 440-volt motors the casing must be metallic, and must be connected to earth. Conductors to resistances should pass upward, and be connected to terminals at the lower end of the frame.

38. All cooking and heating apparatus must be fitted with safety fuse on both mains, and kept free from any combustible material. Special permission must be obtained before installing such apparatus.

39. In the case of motors supplied at a pressure of 440 volts the conductors must be enclosed in strong metal casing, screwed iron pipe (weldless or brazed steel tube) which must be efficiently connected with earth throughout its entire length. The conductors must be run direct from the motor to the Corporation meter with separate fuses within three feet of the meter. These fuses are to be in addition and connected in parallel with the main fuse mentioned in Regulation No. 27, and should be fixed on the same board.

The insulation resistance of conductors must be of not less than 2,500 megohms per mile.

(2) The Principal Officer of Customs may seize and detain any carcase, dung, fodder, litter, fittings, pens, hurdles, or utensils landed in contravention of this article, and he shall forthwith report the facts to the Commissioners of Customs, who may give such directions as they think fit for the destruction or disposal thereof.

CHAPTER 2.—FOREIGN ANIMALS SUBJECT TO SLAUGHTER.

Conditions of Landing.

4.—(1.) The landing of foreign animals at a Foreign Animals Wharf is hereby made subject to the following conditions:

First. That the vessel in which they are imported has not, within twenty-eight days before taking them on board, had on board any animal exported or carried coastwise from a port or place in any scheduled country.

Second. That the vessel has not within twenty-one days before taking on board the animals imported or at any time since taking them on board, entered or been in any port or place in any scheduled country.

Third. That the animals imported have not, while on board the vessel, been in contact with any animal exported or carried coastwise from any port or place in any scheduled country.

Animals when landed at a Foreign Animals Wharf shall be driven by lairage men to the nearest available reception-lair or lairs within the limits of the wharf, there to await the examination of an Inspector of the Board, and, until so examined, shall not be allowed to come in contact with any animals other than those forming part of the same cargo.

EDWARD THE SEVENTH by the Grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India,

To the Sheriff of the Colony of the Cape of Good Hope or his lawful Deputy.

Greeting :—

WHEREAS upon the Petition to the Right Honourable the Chief Justice and the other Judges of our Supreme Court of our said Colony, of ALFRED JONES, trading as W. N. JONES & SON, of 12 Bread Street Hill, London (hereinafter called the Petitioner), against JOSEPH RICHARDS, WILLIAM HENRY RICHARDS, GEORGE IMPEY RICHARDS, and ALFRED RENFREW RICHARDS, now or lately trading in Cape Town as printers and stationers under the style or firm of W. A. RICHARDS & SON (hereinafter called the Defendants), it appears to us that the said Defendants are justly and truly indebted to the said Petitioner in the sum of £991 11s. 5d., being the amount of an account for stationery, paper, and other articles supplied to them.

And whereas on the 21st September, 1895, an indenture was drawn up between W. A. RICHARDS & SON and certain inspectors (ALFRED SAUNDERS WALFORD and WILLIAM N. JONES), by which the business of W. A. RICHARDS & SON was to be carried on under inspection until certain trusts had been performed, and after paying expenses the realised assets were to be devoted :—

(*a*) Towards paying the Defendants certain salaries.
(*b*) Towards paying quarterly interest to cash creditors.
(*c*) Towards paying trade creditors.
(*d*) When all amounts due to trade creditors had been paid then the surplus after providing for half-yearly payments of interest to cash creditors was to be paid in reduction of cash creditors' claims.
(*e*) And, lastly, the funds were to be devoted towards payment of interest at the rate of £2 10s. per annum to trade creditors until the discharge of their claims.

And whereas there is a further provision in the Deed of Indenture aforesaid that subject to the fulfilment by the debtors of their duties and obligations and, except in the event of the termination under any provision thereof of the arrangements agreed upon, none of the creditors should sue.

And whereas there is also a provision that cash creditors should not rank until trade creditors had been paid.

And whereas there has been a failure in carrying out the agreement which would justify any Creditor in taking legal proceedings in that all payments have ceased since the 30th June, 1899, in consequence of which the indenture became inoperative.

And whereas the cash creditors were paid interest at the rate of six per cent. per annum from the 30th June, 1895, to the 30th June, 1899, but nothing in reduction of capital, and the trade creditors were paid six dividends of 1/8 in the £, that is 10 but nothing for interest.

And whereas it was stated that the probable result of the liquidation would show.

Liabilities	£54,071 and	
Assets	47,500	
Or a Deficiency of	£6,571	

Or according to another statement.

LIABILITIES.

Preferent	£31,000	
CONCURRENT.		
Trade Creditors ...	£12,956	
Cash Creditors ...	11,592	
		£55,548
Assets		47,500
Or a Deficiency of		£8,048

And the said Defendants did thereby commit an act of Insolvency, whereupon the said Petitioner prayed that the Estate of the said Defendant might be sequestrated for the benefit of their Creditors.

And whereas it further appears to us of record that the Right Honourable SIR JOHN HENRY DE VILLIERS, K.C.M.G., the Chief Justice of the Supreme Court of our said Colony, did by order under his hand bearing date the 7th day of September, 1903, last place the Estate of the said Defendants under sequestration provisionally in the hands of the Master of our said Court, until the same should be thereafter adjudged to be sequestrated, or the said Petition should be discharged.

Now, therefore, we command you that you summon the said defendants that they appear before our Justices of the Supreme Court of our said Colony, at Cape Town, on the 12th October, 1903, at 10.30 o'clock in the forenoon, to show cause, if they have any, why their Estate should not by sentence of the said Court be adjudged to be sequestrated for the benefit of their Creditors.

And serve on the defendants a copy of this summons, and return you then there this summons with whatsoever you have done thereupon.

Witness, the Right Honourable Sir John Henry de Villiers, K.C.M.G., our Chief Justice of our said Colony, the 11th day of September, 1903, in the Third Year of our Reign.

To DIRK JOHANNES BOOYSEN, formerly of the Kaap Plateau, division of Hay (but whose whereabouts are at present unknown).

GREETING :—

WHEREAS upon the Petition of MARIA CATHARINE VAN DER BYL, married without Community of property to Adriaan van der Byl, our Supreme Court of the Colony of the Cape of Good Hope did, on the 27th day of August, 1903, grant leave to the said MARIA CATHARINE VAN DER BYL, married as aforesaid, in order to found jurisdiction, to attach certain property specially hypothecated under a certain Mortgage Bond passed and executed by JAN JOHAN MICHAU as the duly authorised Agent of DIRK JOHANNES BOOYSEN in her favour on the 7th December, 1897 for the sum of £800 sterling at the rate of Six per centum per annum which sum had become due and payable by reason of the non payment of Interest in terms of the said Bond; and furthermore having granted leave to the said MARIA CATHARINE VAN DER BYL married as aforesaid to sue you the said DIRK JOHANNES BOOYSEN by Edictal Citation, personal service to be effected if possible, failing which that the Citation be published once in the *Government Gazette* and once in *Ons Land*.

Now, therefore, We command you DIRK JOHANNES BOOYSEN to appear before our Supreme Court on the 15th October, 1903 at 10 o'clock in the forenoon, either by person or proxy to shew cause if any wherefore you have not paid the said MARIA CATHARINE VAN DER BYL married as aforesaid, hereinafter called the Plaintiff, the said sum of £800 sterling together with all interest due thereon from the 1st of November, 1897 which you owe and unjustly detain from the said Plaintiff upon and by virtue of the said Mortgage Bond: and also to acknowledge or deny the due execution of the said Bond or the validity of the said debt.

And doth also summon you the said Defendant, then and there to plead to the provisional claim of the said Plaintiff for payment thereof under security with costs :—

And at the same time to shew cause if any why the property specially mortgaged by the said Bond shall not be declared executable for the sum above demanded, or to join issue thereon.

WITNESS :—Sir John Henry de Villiers, K.C.M.G., our Chief Justice of our said Colony, at Cape Town, the 11th day of September, 1903, in the third year of our reign.

OVEREENKOMSTIG artikel II., Wet No. 15 van 1887, als geamendeerd door artikels IV., V. en VI., van Wet No. 40 van 1895, wordt hiermede ter algemeene informatie bekend gemaakt dat het volgende Erven of stukken Kroonland, gelegen in de Afdeeling van Riversdale, bij publieke auctie te koop aangeboden zullen worden voor het kantoor van den Civielen Commissaris, te Riversdale, om 10 uur v.m., op Woensdag, den 25sten November, 1903, onderhevig aan de voorwaarden en bepalingen in bovengemelde wet en in de algemeene koopcondities uiteengezet, en verder aan zulke voorwaarden als op den verkoopdag mogen genoemd worden.

(i) Dat, als geene betaling geschiedt op den koopdag een-tiende van den koopprijs betaald worden zal op zes maanden en een-tiende op twaalf maanden, gerekend van den verkoopdag.

(ii) Dat, als minder dan een-tiende van den koopsom op den koopdag betaald wordt, het overige van zulk een-tiende betaald worden zal na verloop van zes maanden, en het andere een-tiende na verloop van twaalf maanden, gerekend van den verkoopdag.

(iii) Dat, als het bedrag betaald op den verkoopdag het een-tiende zijn zal of eenige som tusschen een-tiende en een-vijfde deel van de koopsom, het overige van een-vijfde van de koopsom betaald worden zal na verloop van twaalf maanden, gerekend van den koopdag.

(iv) In geval de koopsom minder dan vijf-en-twintig ponden zal zijn, zal het geheele bedrag kontant of in gelijke deelen betaald worden over een tijd van drie (3) jaren.

Interest op de bovengenoemde sommen zal betaald worden gerekend tegen vier per cent per jaar; en de betaling der paamenten, met de interest daarop, zal op den koopdag door twee naar het oordeel van de Civielen Commissaris goede, voldoende borgen verzekerd worden, welke borgen in betrekking tot die betaling zich als borgen *in solidum* en mede principale schuldenaars verbinden, afstand doende van de exceptien van executie en divisie.

Als de kooper of diens borgen feilen, of niet in staat zijn de noodige betalingen van de koopsom als bovengenoemd binnen de gestelden tijd te doen, zal de Regeering het recht hebben den koop nietig te verklaren, en alle betalingen reeds gedaan ten opzichte van dien koop, zullen aan de Regeering vervallen.

De uitgaven van opmeting op elk deel en van den Grondbrief (nl., 12s. 3d.) zullen aan de Civielen Commissaris, of anders te dien opzichte wettelijk geauthoriseerde persoon, op den koopdag betaald worden.

In geval de koopprijs £25 of meer is, is de kooper verplicht een verband te passeeren, gevende interest tegen vier per cent per jaar, ten gunste van het Gouvernement voor vier-vijfde van den koopsom, tenzij hij op den koopdag meer dan een-vijfde daarvan betaald hebben zal, in welk geval het bedrag van het verband voor de balans van den koopsom zijn zal, hebbende de kooper het recht het verband of eenig deel daarvan, zijnde niet minder dan vijftig ponden in eens, af te betalen.

Mocht de kooper de balans van de koopsom op verband willen houden, als bovenvermeld, dan zal hij het verband moeten passeeren binnen dertien (13) maanden van den koopdag, in gebreke waarvan een boete van een shilling opgelegd worden zal voor iederen dag, die daarboven voorbijgegaan is tot op achttien maanden van de datum der verkooping; na welken tijd, mocht er nog geen verband gepasseerd zijn, de balans van de koopsom, met interest daarop, en het bedrag van de boete, aldus opgelegd, zoo er eenige is, terstond vervallen zal en betaald zal moeten worden en in ieder bevoegd gerechtshof zonder verdere kennisgeving opgevorderd zal worden; en indien niet binnen een maand na datum van vonnis betaald, zal de koop van nul en geener waarde worden, en reeds gedane betalingen zullen aan de Regeering vervallen.

[854.] [1903.]

Headquarters, Cape Colonial Forces,
Parliament Street,
Cape Town, 15th September, 1903.

HIS Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Rules for the Diamond Fields Artillery.

R. G. SOUTHEY, Colonel,
Colonial Military Secretary.

RULES OF THE DIAMOND FIELDS ARTILLERY.

1. The Corps is serving under the Colonial Forces Act of 1892, and the members are consequently subject to the provisions of that Act, and by any other Act by which it has been or shall be amended, and to all Regulations which have been or shall be issued under the authority of the Governor.

2. The Corps shall consist of two classes—(1) enrolled members consisting of efficients and non-efficients, and (2) of honorary members, the latter contributing to the funds of the Corps (except as otherwise provided in paragraph 19), but not being enrolled for service.

3. All subscriptions shall fall due on the 1st January.

4. The Commanding Officer will propose gentlemen for commissions as officers, in accordance with the Regulations in force for the time being.

5. No person shall be admitted as a member of the Corps, unless with the approval of the Commanding Officer, and on the proposal of two members of the Corps.

6. The Non-Commissioned Officers will be appointed by the Commanding Officer.

7. Each member must be provided with uniform and accoutrements of the pattern approved of by the Governor.

8. Each member shall be responsible for the due preservation of all articles issued to him, which are the property of the Colonial Government, or of the Corps, fair wear and tear only excepted.

9. The expression "Property of the Corps" shall include all articles which have been purchased out of the funds of the Corps, or presented to the Corps.

10. Although the Commanding Officer is solely responsible for the discipline, he is empowered by the Regulations to assemble at any time a Court of Enquiry to investigate any matter relative to the Corps, excepting the conduct of a commissioned officer. Such Court of Enquiry, when assembled, shall consist of three members of the Corps, one of whom at least shall be an officer. Any enquiry in reference to a commissioned officer must be made by a Court composed of officers of the Volunteer Force convened under due authority.

11. The Commanding Officer shall fix the time and place for all parades, drills, and gun practice.

12. The senior officer in command shall have power, subject to the approval of the Commanding Officer, to inflict the following fines:—

	s.	d.
For loading contrary to orders, or shooting out of turn	2	6
For discharging the rifle accidentally	5	0
For pointing same at any person, loaded or unloaded	20	0

13. All fines imposed on members of the Corps shall be entered in a book kept under the orders of the Officer Commanding for that purpose.

14. All fines shall be paid on or before the first day of the month succeeding that in which they have been incurred, and shall be collected by a Non-Commissioned Officer appointed by the Commanding Officer.

15. The property of the Corps is, by the Regulations, vested in the Commanding Officer; but a "Finance Committee," to aid him in the management of the finances of the Corps, shall be appointed yearly. This Committee shall consist of not less than three members besides the Commanding Officer.

Non-Commissioned Officers and men of over two years' service are eligible to be members of the Committee, and will be elected annually at the General Meeting of the Corps. The Committee shall consist of five members, three of whom are to form a quorum.

The annual appointment of the Committee shall take place annually on the 15th July.

The Commanding Officer shall cause an Abstract of the Accounts to be annually prepared and posted up in the gun-sheds for the information of every member of the Corps.

16. Any member obtaining leave of absence for any period exceeding one month, will hand in his arms.

17. As the use of bad, harsh, or intemperate language by officers or non-commissioned officers towards their juniors is calculated to lead (more than anything else) to a breach of discipline, it is strictly prohibited, and fines not exceeding 10s. may be inflicted by the Commanding Officer on those who disregard this rule.

18. Honorary members may, in accordance with the Regulations, wear the uniform of gunners of the Corps, with such distinguishing mark on the sleeve as may be approved of by the Commanding Officer. They are not to interfere in any way with the military duties of the Corps, but they may, when the Commanding Officer approves, attend "Plain Clothes" drill.

19. Honorary members shall severally pay a donation of £2 2s., or annual subscription of 10s.; but a retired Volunteer who has been returned as an efficient for at least 8 years, and who is willing to re-enrol, should occasion require his services, may be taken on the Roll of Reserve members without payment of donation or annual subscription, provided that the special sanction of the Commanding Officer to his so doing has been given.

20. Any member of the Corps behaving in any manner in public likely to bring contempt on the uniform of the Corps, will be liable to dismissal.

21. Every member is expected to provide himself with a copy of the Rules of the Corps.

SWISS FARM LABOURERS.

THE Government, having arranged to obtain a limited number of Swiss Farm Labourers for employment by farmers in the Vine and Fruit districts, invite applications for such labourers, to be addressed to the undersigned, stating the number required, and whether single or married men with families.

The terms and conditions on which the labourers can be engaged are stated hereunder.

The applications which have already been made for Italian labourers will, unless advice be received to the contrary, be held to stand for Swiss labourers.

The labourers will, as far as possible, be allotted to applicants according to priority of application. Applicants will receive the longest possible notice by letter as to when their labourers may be expected to arrive in the Colony.

CHARLES CURREY,
Under Secretary for Agriculture.

CONDITIONS FOR EMPLOYMENT OF SWISS FARM LABOURERS.

1. The labourer and his family will be landed in Cape Town free to the employer, who will not be called upon for any part of the passage money. The employer will, however, have to bear cost of conveying the labourer and family from Cape Town to his farm.

2. The wages to be paid to the labourer by the employer shall be at the following rates, viz.:—

For each MAN, 2s. 6d. for every full working day.
For each WOMAN, 1s. for every full working day, except during the Fruit season, when for working extra time the rate shall be 1s. 3d. for every full working day.
For CHILDREN, such rate as may be mutually agreed upon between the employer and the parent or parents of the said children.

3. The working day for men shall commence at sunrise and terminate at sunset; for women and children, it will commence at 8 o'clock a.m. and terminate at 4 o'clock p.m.: Provided that there be allowed to the labourer for meals in summer two hours; in winter, one and a half hours per day.

4. The working week shall comprise not less than five and a half full working days, and at the labourer's option may be extended to six days upon such terms as to wages or otherwise as may be agreed upon between the employer and the labourer.

5. The employer shall provide the labourer with a cottage containing at least two rooms, but such further room or rooms shall be provided as may be rendered necessary by the number of persons in the family of the labourer.

6. The employer shall provide each labourer (or if married, the head of each labourer's family), with suitable garden ground, in extent not less than one acre.

7. On the satisfactory completion of the Contract hereinbefore set forth, the Government will use its influence and best endeavours to promote a fresh Contract or Contracts between the labourer and the employer, whereby the labourer shall be entitled to remain on the land and work some portion or portions of the same on the "Metayer" system, or upon some other system or principle by which the labourer will have the right to enjoy a share or shares in the profits derived from the land under cultivation.
